Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	42

City of Lakeland

November 10, 2008

To the Mayor, Board of Commissioners and Citizens of Lakeland:

The Comprehensive Annual Financial Report (CAFR) of the City of Lakeland, Tennessee for the fiscal year ended June 30, 2008, is hereby submitted in accordance with the City of Lakeland Charter requirement for an independent audit by a certified public accounting firm. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Board (GASB) and have been audited in accordance with generally accepted auditing standards.

This report consists of management's representations concerning the finances of the City of Lakeland. Management assumes full responsibility for the completeness and reliability of all of the information presented in this report. Management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Watkins Uiberall, PLLC have audited the City of Lakeland financial statements, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2008, are free of material misstatement. The independent auditor concluded, based upon the audit, that there was a reasonable (clean) basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended June 30, 2008, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of the report.

Profile of the Government

The City of Lakeland, incorporated in 1977, is located in northeast Shelby County in the Southwestern part of the State. Lakeland occupies 24 square miles and serves a population of over 10,848. The City is empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the Board of Mayor and Commissioners.

The City of Lakeland's charter provides for a Commission-City Manager form of Government. Lakeland major operational activities are handled by a City Manager, who is appointed by the Board of Commissioners. Under Lakeland's form of government, the five-member Board of Commissioners, one of whom is elected as Mayor, are elected at large. The Commission's duties are to set City policy through legislation and to supervise and evaluate the management of the City by the City Manager. The Commissioner, among other things, is responsible for passing ordinances, adopting the budget and appointing committees. The Board of four Commissioners and the Mayor are elected to four-year terms by popular vote. One-half of the Board is elected every two years.

The City of Lakeland provides a range of municipal services including street and drainage construction and maintenance, solid waste collection, recreational programs, planning and zoning and administrative services. In addition, the City operates a sewer utility system.

The Shelby County School of Education provides educational services to students within the jurisdiction of the City of Lakeland. The County school system is part of the Shelby County Government of Shelby County. The Memphis Light, Gas, and Water Division of the City of Memphis provide electrical and natural gas distribution to the Lakeland service area. The City of Memphis also provides sewer service to a small portion of the City of Lakeland. These entities do not meet the established criteria for inclusion in the reporting entity and are not included in this report.

The City of Lakeland annually prepares a plan of services for the upcoming fiscal year and the estimated cost of providing those services. This plan is reviewed by the Board of Mayor and Commissioners and is formally adopted by the passage of a budget ordinance. Strict budgetary compliance is maintained by the automated accounting system to assure effective fiscal management and accountability. All requests for purchases are checked by the City Manager to assure that funds are available. Purchase Orders and contracts are encumbered prior to release to vendors. The City Manager may transfer resources within a department as required.

Local Economy

The City of Lakeland currently has a moderate economic growth and is continuing to grow. The City population at the last Special Census is 10,848.

The City of Lakeland purchased several tracts of land adjacent to the existing City Hall complex in preparation for construction of Fire Station # 2. This fire station is proposed to be built and owned by the City and staffed and equipped by the Shelby County Fire Department.

The Board of Commissioners also approved a match of \$3,000,000 for the interchange at I-40 and Canada Road for a joint project with the Tennessee Department of Transportation for the construction of a single-point interchange.

The City is also in the process of development new Land Development Regulations, which are comprehensive regulations affecting all new development.

The City is continuing the development of Canada Road from I-40 to Highway 64 with landscaping of the median and future bike and pedestrian paths.

Long-term financial planning

- Fire Station #2
- Acquisition of property for a major sports park
- Several streets, including the extension of Beverle Revira Avenue.
- Park and Recreation Master Plan
- Continued development of Parks
- Planning and construction of New Canada Road

Major initiatives

- Construction and widening of Canada Road was started in 2004 and was completed in 2006. The medians are being landscaped and bike and pedestrian paths are planned or being constructed by private development
- New Canada Road alignment, environmental review and preliminary design is underway.
- Purchase of property for Fire Station #2 or for other City functions.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance and administration department. We wish to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Lakeland's finances.

Respectfully submitted,

Robert Wherry, City Manager

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Board of Commissioners of the
City of Lakeland, Tennessee:

We have audited the accompanying financial statements of the governmental activities, the business-type activity, each major fund, the statements of budgetary comparison for the general fund and solid waste fund, and the aggregate remaining fund information of the City of Lakeland, Tennessee, (the "City") as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof, and the budgetary comparisons for the general fund and solid waste fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2008 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit

performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section and supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary schedules shown on pages 35 to 39 have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and supplementary schedules shown on pages 40 and 41 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Watkins Liberal, PLLC

Memphis, Tennessee

Management's Discussion and Analysis

This is a narrative overview and analysis of the financial activities of the City of Lakeland for the fiscal year ended June 30, 2008. Please consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and notes to the financial statements.

Financial Highlights

- The assets of the City of Lakeland exceeded its liabilities at the close of the most recent fiscal year by \$59,507,811 (net assets). All net assets of the City of Lakeland are unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.
- The City of Lakeland's total net assets decreased by \$3,109,550 in fiscal year 2008.
- As of June 30, 2008, the City of Lakeland's governmental funds reported combined ending fund balances of \$4,303,759, a decrease of \$606,623 in comparison with the prior year.
- At the end of the current fiscal year, unreserved, undesignated fund balance for the general fund was \$4,201,272 or 116 percent of total general fund expenditures.
- The City of Lakeland's total debt increased \$2,310,860 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Lakeland's basic financial statements. The City of Lakeland's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the City of Lakeland's finances, in a manner similar to a private-sector business.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Lakeland that are principally supported by taxes and intergovernmental revenues

(governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Lakeland includes general government, capital projects, public safety, public works, and parks and recreation. The business-type activities of the City of Lakeland include the operation of the sewer facilities.

The government-wide financial statements include only the City of Lakeland itself. The City of Lakeland operates a sewer system, which is reported as a proprietary fund in the City's financial statements.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Lakeland, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Lakeland can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Lakeland maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and solid waste fund. Data from the other government fund is in a single, aggregated presentation. The City of Lakeland adopts an annual appropriated budget for its general fund and solid waste fund. Budgetary comparison statements have been provided to demonstrate compliance with these budgets.

Proprietary funds: The City of Lakeland maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type

activities in the government-wide financial statements. The City of Lakeland uses an enterprise fund to account for its Sewer operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the sewer activities of the City of Lakeland, which is considered to be a major fund.

Notes to the financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information.

Government-wide Financial Analysis:

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Lakeland, assets exceeded liabilities by \$59,507,811 at the close of June 30, 2008.

By far the largest portion of the City of Lakeland's net assets (88.2 percent) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The City of Lakeland uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Lakeland's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City has \$12,030,426 of outstanding debt as of June 30, 2008.

The following provides a summary of the City's net assets at June 30, 2008.

Summary of Net Assets

	<u>Governmental Activities</u>		<u>Business Type Activities</u>		<u>Totals</u>	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>

At the end of the current fiscal year, the City is able to report positive balances in all categories of net assets.

The City's net assets decreased by \$3,109,550 during the current fiscal year. Of this amount, \$2,595,871 represented a decrease in the net assets from governmental activities and \$513,679 represented a decrease in the net assets from business-type activities.

The following provides a summary of activities for the City during the fiscal year ended June 30, 2008.

Summary of Changes in Net Assets

Governmental Activities

Governmental activities decreased the City's net assets by \$2,595,871.

Business-Type Activities

Business-type activities decreased the City's net assets by \$513,679. The key elements of this decrease are as follows:

Interest expense on long-term debt was \$253,799.

Depreciation expense for sewer accounted for \$417,731 of total decrease.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with financial-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the City of Lakeland's governmental funds reported combined ending fund balances of \$4,303,759, which was a decrease of \$606,623 in comparison with the prior year. Approximately 98% of this amount, \$4,201,272, constitutes unreserved fund balance, which is available for spending at the City's discretion. Included in unreserved fund balance is \$102,487 which has been designated by the Board of Commissioners for use in the related special revenue funds.

The key elements of the decrease \$606,623 is as follows:

\$235,398 principal and interest payment of loan from City of Clarksville Public Building Authority through the Tennessee Municipal League

\$694,699 representing capital expenditures in excess of revenues received. The increase in expenditures were due to the construction of Windward Slopes Park \$303,358, Purchase of land adjacent to City Hall \$294,493 and the enhancement of Canada Road (south) of I-40 \$96,848 all capital projects were funded through the fund balance.

The General Fund is the principal operating fund of the City. At the end of the current fiscal year, the fund balance of the General Fund was \$4,201,272, all of which was unreserved. The General Fund balance represents approximately 114% of the total General Fund expenditures and transfers out. The fund balance of the City's General Fund decreased by \$600,320 as a result of the current year operations.

Special revenue funds have a fund balance of \$102,487. This amount is unreserved but board designated for special revenue fund expenditures. The combined fund balance for all special revenue funds decreased by \$6,303, due mainly to increases in operating expenses and capital outlays in State Street Aid Fund and Solid Waste Fund.

Proprietary Funds

The City's proprietary funds provide the same type information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the sewer fund at the end of the year amounted to \$2,712,461. Other factors concerning the financial position of this fund have already been addressed in the discussion of the City's business-type activities.

Capital Assets and Debt Administration

Capital Assets

The City's investment in capital assets for its governmental and business type activities as of June 30, 2008, amounts to \$64,522,017 (net of accumulated depreciation) a decrease of \$713,949 from prior year. This investment in capital assets includes land, buildings and improvements, furnishing and equipment, infrastructure, and construction in process.

Major capital asset events during the fiscal year included the following:

- Various street and road improvements
- Contributions of infrastructure & sewer collection from completed development
- Purchase of land

Summary of Capital Assets

Information related to the City's long-term debt can be found in Note 4 to the financial statements on pages 30 - 31 of this report.

Budget Discussion

In preparing the City of Lakeland's budget for the 2008-2009 fiscal year the major sources of revenue for the City are local and state shared taxes, development / building fees, and user fees.

The estimated State Shared Taxes revenues are projected to slightly decrease from the last year's budget. Reasons for this include construction at the Lakeland Mall and the general slowdown of the economy. Several new businesses are expected to substantially contribute an increase to sales taxes, but we remain conservative and assume no increase.

The City tries to ensure that development etc. pays for itself (so existing residents and businesses do not subsidize new development) without overcharging for development by charging development and building fees. The City budgets relatively conservatively, and even one medium size development would have a major effect on revenues.

The City of Lakeland has approved an operating budget of \$4,609,513 and capital improvements of \$1,800,000 to be funded by fund balance (cash account). The total budget for the 2008-2009 is \$6,409,513.

Requests for Information

This financial report is designed to provide a general overview of the City of Lakeland's finances for all those with an interest in the government's finances. Question concerning any of the information provided in this report or requests for additional financial information should be addressed to City of Lakeland, Office of Finance, 10001 U.S. Highway 70 Lakeland, Tennessee 38002.

CITY OF LAKELAND, TENNESSEE

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2008

Amounts reported for governmental activities in the statement of net activities
are different because:

Net change in fund balance - total governmental funds \$ (606,623)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Contributions of capital assets are not recognized in the governmental funds but are recognized as revenue when received in the statement of activities. This is the amount by which depreciation exceeded capital outlays and contributions in the current period. (2,126,373)

The issuance of long-term debt (e.g. notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt. 137,125

Change in net assets of governmental funds \$ (2,595,871)

The accompanying notes are an integral part of the financial statements.

CITY OF LAKELAND, TENNESSEE
NOTES TO FINANCIAL STATEMENTS

June 30, 2008

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Lakeland, Tennessee (the City) was incorporated in 1977 as a municipal corporation governed by an elected mayor and four-member board of commissioners.

As required by accounting principles generally accepted in the United States of America, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. However, currently there are no component units.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statements of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenues (except for investment earnings) are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the primary operating fund of the City and accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Solid Waste Fund accounts for the receipts and expenditures related to sanitation services.

The City reports the following non-major governmental fund:

The State Street Aid Fund accounts for the receipts and expenditures of the City's share of the proceeds from the state gasoline tax.

The City reports the following major proprietary fund:

The Sewer Fund accounts for the activities of the City's collection, transportation, treatment and disposition of wastewater.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government – wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in

connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer fund are charges to customers for sales and services. The sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the sewer fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D - Assets, liabilities and fund equity

1. Deposits and investments

The City considers all highly liquid investments with an original maturity of three months or less when purchased to be cash and cash equivalents. All certificates of deposit are considered to be cash and cash equivalents.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade receivables are shown net of an allowance for uncollectibles. However, there is no allowance due to subsequent receipt.

3. Restricted assets

Certain cash and cash equivalents of the City are classified as restricted assets on the balance sheet because they are maintained in separate accounts and/or their use is limited by certain agreements and contracts with third parties. Restricted balances include escrow for construction contractors established to fund retainages of outstanding construction projects.

4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., streets, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. The government reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. In the case of donations, the government values these capital assets at the estimated fair value of the item at the date of its donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Roads and bridges	30 years
Buildings and building improvements	15-40 years
Land improvements	20 years
Machinery, equipment and heavy vehicles	5 years
Automobiles	5 years

5. Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

6. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Note issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize note issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

8. Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect

certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Notes payable	\$ 2,722,095
Less: Deferred charge for issuance costs (to be amortized over life of debt)	<u>(14,000)</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u>\$ 2,708,095</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of the difference are as follows:

Capital outlay	\$ 1,057,735
Depreciation expense	<u>(3,184,108)</u>
Net adjustment to decrease net change in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (2,126,373)</u>

Another element of that reconciliation states that "the issuance of long-term debt (e.g. notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debts consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs and similar items when first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Amortization of issuance costs	\$ 875
Principal repayment on notes payable	<u>(138,000)</u>
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (137,125)</u>

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The revenues and expenditures accounted for in all governmental fund types are controlled by a formal integrated budgetary accounting system. The mayor and board of commissioners approve annually the budgets for these funds. Budgetary control is maintained at the government wide level by total expenditures and expenditures may not exceed funds budgeted, which constitute the legal spending limit. Management may not amend the budget without approval of the governing body.

B. Excess of expenditures over appropriations

For the year ended June 30, 2008, the solid waste fund's expenditures exceeded appropriations by \$37,209.

C. Deficit fund equity

As of June 30, 2008, no funds had a deficit of fund equity.

NOTE 4 - DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

At year end, the City's carrying amount of deposits was \$6,702,378 and the bank balance was \$6,836,248. Of the bank balance, \$400,000 was covered by the Federal Deposit Insurance Corporation with the remaining balance of \$6,436,248 being collateralized with the State of Tennessee Bank Collateral Pool with securities held by the pledging financial institution's trust department or agent in the City's name.

State statutes authorize the City to invest in bonds, notes or treasury bills of the United States of America or any of its agencies, certificates of deposit, repurchase agreements utilizing obligations of the United States of America or its agencies as the underlying securities, state pooled investment funds, money market mutual funds, and mortgage-backed securities. Statutes require that (1) deposits have securities as collateral whose market value is equal to 105 percent of the value of the deposits, less so much of such amount as is insured by federal deposit insurances and (2) securities underlying repurchase agreements must have a market value of at least equal to the amount of funds invested in

the repurchase agreement. Tennessee Code Annotated Sections 9-4-105 and 9-4-404 state that collateralization coverage for cash deposits may be computed based on average daily balances of the preceding month. City deposit policies follow the State statutes.

B. Receivables

Receivables as of year-end for the City's individual major funds, including the applicable allowances for the uncollectible accounts, are as follows:

	General Fund	Sewer Fund	Total
Receivables:			
Taxes	\$ 37,935	\$ -	\$ 37,935
Interest	14,788	19,880	34,668
Accounts receivable	-	37,677	37,677
Gross receivables	<u>52,723</u>	<u>57,557</u>	<u>110,280</u>
Less: allowance for doubtful accounts	-	-	-
Net total receivables	<u>\$ 52,723</u>	<u>\$ 57,557</u>	<u>\$ 110,280</u>

Amounts due from other governments represent the normal amounts due from state and county governments for shares revenues and tax allocations.

C. Capital assets

Capital asset activity for the year ended June 30, 2008 was as follows:

	Beginning Balance	Increases	Decreases/ Transfers	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 6,514,094	\$ 294,493	\$ -	\$ 6,808,587
Construction in progress	960,532	128,321	(960,532)	128,321
Total capital assets, not being depreciated	<u>7,474,626</u>	<u>422,814</u>	<u>(960,532)</u>	<u>6,936,908</u>
Capital assets, being depreciated:				
Buildings and improvements	1,973,574	-	-	1,973,574
Improvements other than buildings	2,545,374	303,358	960,532	3,809,264
Machinery and equipment	916,451	46,758	-	963,209
Infrastructure	60,727,341	284,805	-	61,012,146
Total capital assets, being depreciated	<u>66,162,740</u>	<u>634,921</u>	<u>960,532</u>	<u>67,758,193</u>
Less accumulated depreciation for:				
Buildings and improvements	(235,511)	(50,676)	-	(286,187)
Improvements other than buildings	(508,908)	(229,845)	-	(738,753)
Machinery and equipment	(636,437)	(88,710)	-	(725,147)
Infrastructure	(20,266,864)	(2,814,877)	-	(23,081,741)
Total accumulated depreciation	<u>(21,647,720)</u>	<u>(3,184,108)</u>	<u>-</u>	<u>(24,831,828)</u>
Total capital assets, being depreciated, net	<u>44,515,020</u>	<u>(2,549,187)</u>	<u>960,532</u>	<u>42,926,365</u>
Governmental activities capital assets, net	<u>\$ 51,989,646</u>	<u>\$ (2,126,373)</u>	<u>\$ -</u>	<u>\$ 49,863,273</u>

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases/ Transfers</u>	<u>Ending Balance</u>
Business-type activity:				
Capital assets, not being depreciated:				
Land	\$ 80,682	\$ -	\$ -	\$ 80,682
Construction in progress	6,943,609	-	(6,943,609)	-
Total capital assets, not being depreciated	<u>7,024,291</u>	-	<u>(6,943,609)</u>	<u>80,682</u>
Capital assets, being depreciated:				
Sewer plant and improvements	7,617,278	1,710,325	6,943,609	16,271,212
Vehicles and equipment	45,007	119,830	-	164,837
Total capital assets, being depreciated	<u>7,662,285</u>	<u>1,830,155</u>	<u>6,943,609</u>	<u>16,436,049</u>
Less accumulated depreciation for:				
Sewer plant and improvements	(1,413,252)	(400,741)	-	(1,813,993)
Vehicles and equipment	(27,004)	(16,990)	-	(43,994)
Total accumulated depreciation	<u>(1,440,256)</u>	<u>(417,731)</u>	<u>-</u>	<u>(1,857,987)</u>
Total capital assets, being depreciated, net	<u>6,222,029</u>	<u>1,412,424</u>	<u>6,943,609</u>	<u>14,578,062</u>
Business-type activity capital assets, net	<u>\$ 13,246,320</u>	<u>\$ 1,412,424</u>	<u>\$ -</u>	<u>\$ 14,658,744</u>

Depreciation expense was charged to function / programs of the primary government as follows:

Governmental Activities:	
General government	\$ 137,463
Public Works	2,971,446
Parks and recreation	75,199
Total depreciation expense - governmental activities	<u>\$ 3,184,108</u>
 Business-Type Activities:	
Sewer	<u>\$ 417,731</u>

D. Interfund receivables, payables, and transfers

As of June 30, 2008, the general fund has a payable to the solid waste fund for \$102,487. This is a result of the general fund maintaining all cash deposits for the governmental funds.

Transfers are used to move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations.

E. Long Term Debt

General obligation loans payable

On July 26, 2004, the City entered into a 20 year loan agreement with the Public Building Authority of the City of Clarksville, Tennessee ("Clarksville PBA") through the Tennessee Municipal League (the "League") for \$3,500,000. The principal on this loan is paid annually while the interest is paid monthly based on a variable interest rate determined monthly by the remarketing agent. At June 30, 2008 the interest rate on this loan was 1.54%.

On June 30, 2006, the City entered into a 20 year loan agreement to borrow \$11,000,000 from the Clarksville PBA through the League. The principal on this loan is paid annually while the interest is paid monthly based on a variable interest rate determined monthly by the remarketing agent. At June 30, 2008 the interest rate on this loan was 1.54%.

Changes in long-term liabilities

Long-term liability activity for the year ended June 30, 2008, was as follows:

	Beginning Balance -	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Notes payable	\$ 2,860,095	\$ -	\$ (138,000)	\$ 2,722,095	\$ 142,000
Less deferred amounts:					
For issuance costs	(14,875)	-	875	(14,000)	-
Governmental-type activity long-term liabilities	<u>\$ 2,845,220</u>	<u>\$ -</u>	<u>\$ (137,125)</u>	<u>\$ 2,708,095</u>	<u>\$ 142,000</u>
Business-type activities:					
Notes payable	\$ 6,947,496	\$ 2,842,135	\$ (398,000)	\$ 9,391,631	\$ 414,000
Less deferred amounts:					
For issuance costs	(73,150)	-	3,850	(69,300)	-
Business-type activity long-term liabilities	<u>\$ 6,874,346</u>	<u>\$ 2,842,135</u>	<u>\$ (394,150)</u>	<u>\$ 9,322,331</u>	<u>\$ 414,000</u>

Annual debt service requirements to maturity based on current interest rates are as follows:

Years Ending June 30	Governmental Activities		Business-type Activities	
	Principal	Interest	Principal	Interest
2009	\$ 142,000	\$ 41,920	\$ 414,000	\$ 144,631
2010	147,000	39,733	430,000	138,256
2011	153,000	37,470	447,000	131,634
2012	158,000	35,113	465,000	124,750
2013	163,000	32,680	484,000	117,589
2014-2018	906,000	123,899	2,724,000	470,057
2019-2023	1,053,095	49,041	3,314,000	242,861
2024-2025	-	-	1,113,631	22,827
	<u>\$ 2,722,095</u>	<u>\$ 359,856</u>	<u>\$ 9,391,631</u>	<u>\$ 1,392,605</u>

The City is not subject to any state or other law that limits the amount of net bonded debt a City may have outstanding, therefore, there is no legal debt margin or computation thereof. The City's full faith, credit, and unlimited taxing authority are pledged to the repayment of all general obligation note principal and interest.

NOTE 5 – EMPLOYEE RETIREMENT SYSTEM

A. Plan Description

Employees of Lakeland are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in the state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Lakeland participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, Tennessee 37243-0230 or can be accessed at www.treasury.state.tn.us/tcrs/PS.

B. Funding Policy

Lakeland requires employees to contribute 5% of earnable compensation.

Lakeland is required to contribute at an actuarially determined rate. The rate for the fiscal year ending June 30, 2008 was 6.65% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for Lakeland is established and may be amended by the TCRS Board of Trustees.

C. Annual Pension Cost

For the year ending June 30, 2008, Lakeland's annual pension cost of \$61,906 to TCRS was equal to Lakeland's required and actual contributions. The required contribution was determined as part of the July 1, 2005 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5% a year compounded annually, (b) projected salary increases of 4.75% (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (c) projected 3.5% annual increase in the Social Security wage base, and (d) projected post retirement increases of 3% annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a five year period. Lakeland's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2005 was -0- years. An actuarial valuation was performed as of July 1, 2007, which established contribution rates effective July 1, 2008.

D. Trend Information

Trend information gives an indication of the progress made in accumulating sufficient assets to pay benefits when due. Following is a summary of the three-year trend for the years ended June 30:

Trend Information			
Fiscal Year Ending	Annual Pension Cost	Percentage of APC Contributed	Net Pension Obligation
June 30, 2008	\$ 61,906	100%	\$ -
June 30, 2007	\$ 49,695	100%	\$ -
June 30, 2006	\$ 36,709	100%	\$ -

E. Funded Status and Funding Progress

As of July 1, 2007, the most recent actuarial valuation date, the plan was 80.87% funded. The actuarial accrued liability for benefits was \$0.31 million, and the actuarial value of assets was \$0.25 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$0.06 million. The covered payroll (annual payroll of active employees covered by the plan) was \$0.73 million, and the ratio of the UAAL to the covered payroll was 8.21%.

The schedule of funding progress, presented as required supplementary information (RSI), presents multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

The annual required contribution (ARC) was calculated using the aggregate actuarial cost method. Since the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funding progress has been prepared using the entry age actuarial cost method for the purpose, and this information is intended to serve as a surrogate for the funded status and funding progress of the plan.

Required Supplementary Information Schedule of Funding Progress for Lakeland

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a % of Covered Payroll ((b-a)/c)
July 1, 2007	\$ 253,000	\$ 313,000	\$ 60,000	80.87%	\$ 729,000	8.21%

The Governmental Accounting Standards Board (GASB) requires the plan to prepare the Schedule of Funding Progress using the entry age actuarial cost method. The requirement to present the Schedule of Funding Progress using the Entry Age actuarial cost method was a change made during the year and therefore only the most current year is presented.

NOTE 6 - COMMITMENTS AND CONTINGENCIES

The City has entered into lease agreements with various governmental units and organizations. The terms of these leases vary and require only nominal token payments, if any. Annual lease payments are not material.

Several lawsuits against the City are ongoing. The ultimate outcome of the actions is not determinable; however, City officials believe that the outcome of these proceedings, either singularly or in the aggregate, will not have a materially adverse effect on the accompanying general purpose financial statements.

NOTE 7 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The City decided it was more economically feasible to join a public entity risk pool as opposed to purchasing commercial insurance for general liability, auto liability, errors and omissions, and auto physical damage coverage. The City joined the Tennessee Municipal League Risk Pool (the Pool), which is a public entity risk pool established in 1979 by the Tennessee Municipal League. The City pays annual premiums to the Pool and its general liability, auto liability, real and personal property damage, workmen's compensation, and errors and omissions policies. The Pool provides the specified coverage and pays all claims from its member premiums charged or through reinsurance policies. The City's premiums are calculated based on its prior claims history. It is the policy of the City of purchase commercial insurance for the risks of employee dishonesty. The City has not incurred any losses in excess of commercial insurance coverage for the past three fiscal years.

CITY OF LAKELAND, TENNESSEE

SCHEDULE OF REVENUES – BUDGET AND ACTUAL – GENERAL FUND

For the Year Ended June 30, 2008

	<u>Budgeted Amounts Original and Final</u>	<u>Actual Amounts</u>	<u>Variance with Final Budget - Positive (Negative)</u>
TAXES			
Local sales tax	\$ 1,030,000	\$ 884,618	\$ (145,382)

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Board of Commissioners of the
City of Lakeland, Tennessee:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the statements of budgetary comparison for the general fund and solid waste fund, and the aggregate remaining fund information of the City of Lakeland, Tennessee (the "City") as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements and have issued our report thereon dated November 10, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Mayor, Board of Commissioners, management, the State of Tennessee, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
